Outcome Measurement 10/14 - 9/15

United Cerebral Palsy's Outcome Measurement System monitors program quality and consumer satisfaction, identifies problem areas, and facilitates planning. It also measures success in achieving program outcomes. Each program has several outcomes and each outcome has an achievement goal. The graph below shows an average of the percentage of achievement for the goals of each program. If they are over 100, the achievement exceeded expectations. Complete information is available semi-annually (May/Nov) in the agency's management report.

Aggregate Fund Balances of UCP as of September 30, 2015: \$512,934
